

Congress of the United States
Washington, DC 20515

March 29, 2023

The Honorable David Joyce
Chairman
Subcommittee on Homeland Security
House Committee on Appropriations
Washington, D.C. 20515

The Honorable Henry Cuellar
Ranking Member
Subcommittee on Homeland Security
House Committee on Appropriations
Washington, D.C. 20515

Dear Chairman Joyce and Ranking Member Cuellar:

Thank you for increasing the funding for the U.S. Citizenship and Immigration Services (USCIS) Citizenship and Integration Grant Program to \$25 million for Fiscal Year (FY) 2023. We write today to request that you continue your support for the integration of immigrants into the social, cultural, economic and civic life of the United States by further investing \$100 million for the USCIS Citizenship and Integration Grant Program in FY 2024.

As you know, the USCIS Citizenship and Integration Grant Program (CIGP) has been part of a multifaceted effort to provide U.S. citizenship preparation resources, support, and information to immigrants and immigrant-serving institutions. Since 2009, the CIGP has awarded more than \$132 million through 579 competitive grants to immigrant-serving organizations in 39 states and the District of Columbia. The program has helped more than 300,000 lawful permanent residents (LPRs) prepare for U.S. citizenship.¹

Unfortunately, even after important investments in citizenship preparation resources, the CIGP currently serves only a fraction of eligible immigrants and immigrant-serving institutions. Despite its life changing impact, the 300,000 LPRs reached by CIGP in its entire history represent less than one percent of the over nine million potentially-eligible LPRs (.033 percent).² On an annual basis, the number of LPRs who will receive citizenship preparation services through the CIGP is even smaller, an estimated 25,000 due to FY 2021 funding.³ Notably, this group of eligible LPRs consists of an estimated 32% who have an income level below 150% of the federal poverty level, and an estimated three million who speak little to no English. By

providing increased assistance through the Grant Program, this eligible population could have greater access to naturalization and English-language classes. Clearly, the need exists to support LPRs interested in becoming citizens, and the vehicle for meeting that need is to increase investments in CIGP.

Additionally, while USCIS reviewed and supported funding for only 66 organizations nationwide, recipient organizations served both traditional immigrant population centers and emerging immigrant population centers in only 35 states, out of 50 states and several territories. Increasing funding for the CIGP will both support immigrant-serving institutions, as well as increase the capacity for additional qualified legal service providers to assist with the naturalization application and process. This will allow USCIS to more efficiently adjudicate applications by reducing filing errors, likely contributing to the agency-wide effort towards reducing casework backlogs and improving processing times. Increasing funding will also further the goals of the Interagency Strategy for Promoting Naturalization, established by Executive Order 14012, Restoring Faith in Our Legal Immigration Systems and Strengthening Integration and Inclusion Efforts for New Americans.⁴ This Order established a naturalization working group that aims to promote naturalization through education, capacity building and partnerships.

Thank you for your consideration of our request to increase FY2024 funding for the CIGP to \$100 million to expand the quality and reach of citizenship instruction programs and ultimately make a civic, economic, and social investment that would benefit families, local communities, and the nation as a whole.

Sincerely,

Jimmy Gomez
Member of Congress
